

PROCESS WEIGHING CALIBRATION

Did you know you can calibrate a scale without test weights as **accurately** and just as **quickly**?

If you've thought that using test weights is the only way to calibrate a scale, you've been misinformed.

Our customers have installed over **150,000** pre-calibrated **Hardy C2®** load cells under their silo, tank, platform, and bench scales.

Our customers complete their calibrations up to **4X FASTER**

Our customers have made the task **7X SAFER** for their employees

Our C2 load cells are **2X MORE RELIABLE.**

They expose mechanical problems while traditional calibrations hide problems

Our customers have reduced the time their scales are unavailable for production between **38 to 51%**
